

Product Data Sheet: Door Retainers Accessories

Description

The following accessories are available to use with our range of door retainers:

KP01 Metal Keeper Plate

This keeper plate works with our whole range of door retainers. It is of solid metal construction so is particularly useful where the keeper plate is in an environment where it may be easily damaged - not ideal for decorative solutions.

KP02 Universal Keeper Plate

This is the standard rugged plastic keeper plate that comes complete with rubber washer and comes as standard with all door retainers apart from decorative.

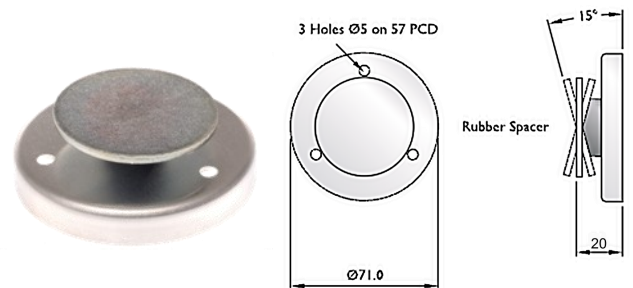

FMB-04 Floor Mounting Bracket

This bracket enables the DRW series of door retainers to be converted to a floor mounted door retainer.

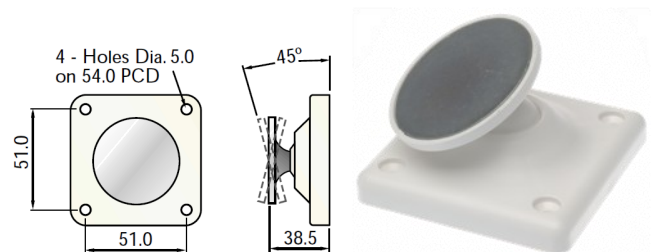

DRF-C Chain and Plate

This metal keeper plate comes attached to a 1m chain which can be shortened as necessary to fill the gap between a door and the wall. This solution can be used with all door retainers.
